

Sunis Wirefree RTS - Solar powered light sensor
Ref 9013075

Basic information

The 100% autonomous radio sun sensor for awning, screen, EVB and roller shutter.

- Zero wiring
- Can be placed anywhere
- Zero maintenance
- Easy to programme
- Easy to adjust
- Easy to mount

Sunis WireFree sensor RTS

Automatically controls the end product based on the amount of sunlight.

Product benefits

- Autonomous solar powered sun sensor.
- Sun function can be switched off (e.g. in the winter).
- No wiring required.
- Easy to programme.
- Easy to set the sun threshold on the back of the sensor.
- Built-in demo function.
- LED indication for the level of sunlight.

Main technical information	
Application(s)	Awnings Motorised blinds
Radio Frequency	433,42 MHz
Nominal Voltage / Frequency	Autonomous: Internal Supercap Rechargeable with solar cells
Color / Finish	Beige
Protection Index	IP 44
