

Size 1 & 2 fittings

No. 761A SERVICE DOOR HANGER

Fitted with a drop forged steel pendant, solid steel wheels, a steel axle and ball bearings, fitted with malleable hinge part No.1006 and extended hinge part No.1008, giving additional support to the service or swinging leaf. Hinge parts secured to the hanger by two lock nuts which provide vertical adjustment, a brass washer ensures a smooth bearing surface to the hinge parts. This fitting is reversible for right or left hand.
